Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The Information Disclosure Statements, filed June 21, 2001, and September 06, 2002, are acknowledged. An initialed copy of the PTO – 1449 is enclosed. It is noted that applicants have filed a large volume of prior art in the instant application. Some of these references do not appear material to the claimed invention. Applicant's attention is directed to *Rohm and haas Co. v. Crystal Chemical Company, et al.*, 220 USPQ 289, *Ex Parte Morning Surf Corp.*, 230 USPQ 446, and *Penn Yan Boats, Inc. v. Sea Lark Boats, inc.*, 175 USPQ 260.
2. The IDS filed on 9/6/02 has not been considered because the serial number, the filing date, and the applicant's names on the PTO – 1449 are incorrect. Therefore, the references on the list have been "crossed – off".

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 5, 6, 8, 17 and 21-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Ukon et al (5,241,362).

Regarding claims 1, 17, 21 and 22; Ukon et al discloses a n optical system comprising a first emitter (13) for emitting a first light beam having a first spectrum; a

second emitter (1) for emitting a second light beam at a second spectrum; first receiver (6) for receiving the first light beam; and a second receiver (15) for receiving the second light beam, wherein the first light beam travels along a first path in a first direction and the second light beam travels along a second path in a second direction and at least a portion of the first light path overlaps with at least a portion of the second light path to form an overlapping beam, and at the overlapping beam the first direction is opposite to the second direction (see figure 1 and claim 4).

Regarding claim 5, Ukon teaches that the first emitter can be visible light (column 3, lines 33-34).

Regarding claim 6, Ukon teaches that the second emitter is one of infrared, ultraviolet light, or visible light emitter (see column 5, lines 17-28).

Regarding claim 8, figure 1 of Ukon shows that the first and second beams of the light source (13) and light source (1) are in opposite directions.

Allowable Subject Matter

5. Claims 2-4, 7, 9-16, 18, 19, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Following references are relative to the claimed invention: Jurca 95,933,240), Johnson et al (5,343,043), Stedman et al (5,401,967), Lord et al
